Declaration of Conformity 12

This equipment is class III EHS Wi-Fi Kit, intended to installed in digital appliances and shall supplied by ES1 and PS1.

Safety precautions

This installation manual explains how to install a EHS Wi-Fi Kit to an indoor unit of Samsung system air conditioners.

Read the installation manual thoroughly before installing the EHS Wi-Fi Kit.
(Refer to the appropriate manual for installing product or other optional parts.)

⚠ WARNING

Hazards or unsafe practices that may result in severe personal injury or death.

⚠ CAUTION

Hazards or unsafe practices that may result in minor personal injury or property damage.

⚠ WARNING

Contact service center for installation.

- There is a risk of product malfunction, water leakage, electric shock or fire.

Install the product securely in a place that can withstand the weight of the product.

- If the installation location is not strong enough, product may fall and be damaged.

Connect the power with rated voltage when installing.

- If not, there is risk of fire or damage to the product.

Do not attempt to move or re-install the product that is already installed.

- There is risk of electric shock and fire.

Do not attempt to modify or repair the product on your own.

- There is potential risk of product damage, electric shock or fire. When repair is needed, consult service center.

Check if the installation was done properly according to the installation manual.

- If the product is installed incorrectly, there is risk of electric shock or fire.

Make sure that all wiring work is done by a qualified person complying with regional standards and instructions in this manual.

- If the installation is done by unqualified person, there is risk of product malfunction, electric shock or fire caused by incorrect installation.

Contact the service center if you need to dispose the product.

Safety precautions

⚠ CAUTION

Do not install the product in a place where it is or might be exposed to inflammable gas leakage.

- There is risk of fire or explosion.

Do not install the product in a place where it will be exposed to oil or vapor etc.

- If the product is used in a place where it is exposed to oil, vapor or sulphur dioxide, parts of the product may get damaged or product may function abnormally.

Make sure that water does not get into the product.

- There is risk of electric shock and fire.

Make sure there is no tension to the cable during installation.

- Cable may get cut and cause fire.

Install the product in a place with temperature between 0 °C~39 °C (32 °F~102 °F) with no direct sunlight.

- If not, there is risk of electric shock or abnormal operation.

Do not install the product in a place where special spray or acid/alkali solution is used.

- There is risk of electric shock or abnormal operation.

Do not press the buttons with sharp objects.

- There is risk of electric shock or damaging the parts.

Do not connect the power cable to the communication cable terminal.

- There is risk of fire.

When installing the product in hospitals or other places, make sure that the product does not interrupt with other products.

- Abnormal operation may occur.

This wireless device has a possibility of radio wave interference during operation.

- The power source does not exceed 100 W.

Checks before Installation

Accessories

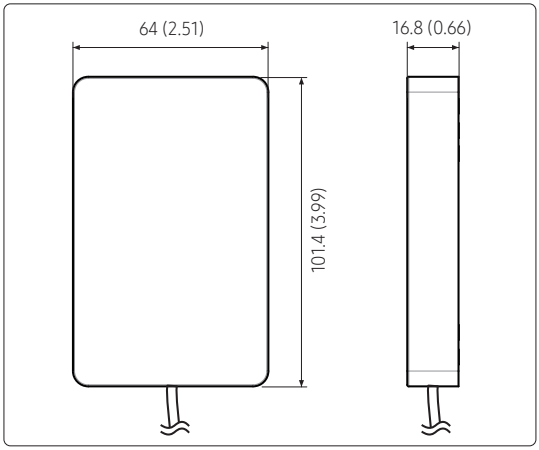

EHS Wi-Fi Kit - with WIRE	Manual Users & Install
	

CAUTION

- The EHS Wi-Fi Kit must be installed by a certified technician.
- Before installation, be sure to cut off power.
- Install the cables of the EHS Wi-Fi Kit inside the product to prevent user access, in accordance with the relevant electrical wiring regulations.

External Dimensions

[Unit : mm (inch)]

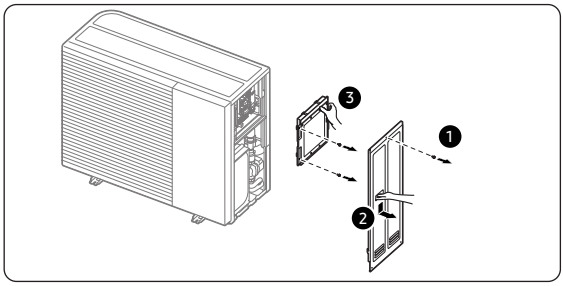

Installing the EHS Wi-Fi Kit

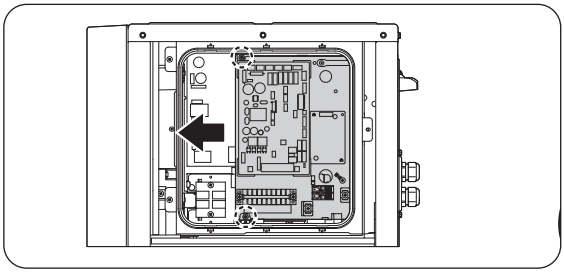

EHS R-290 MONO pump intergated Outdoor Unit (AE***CXYB*K)

Where to install

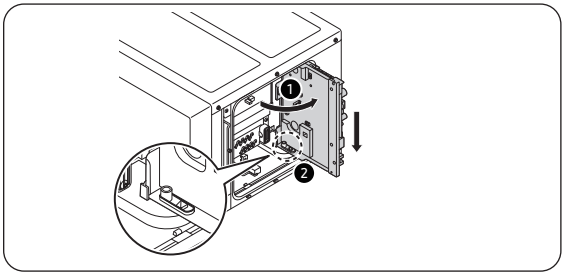

1 Open the switch side cover.

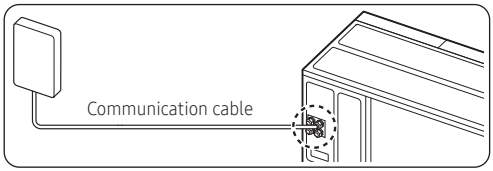

2 Remove 2 screws and pull the plate to the left.

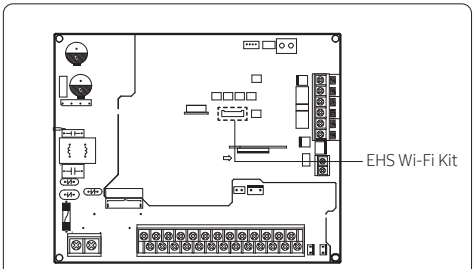

3 If the plate is rotated to where the hook is, it will be fixed to the hook.

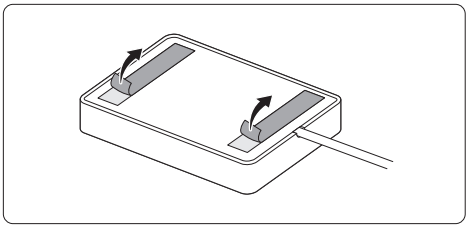

4 Insert the cables at the rear of the unit, and route them through the factory mounted cable sleeves into the switch box.

5 Connect the wire of EHS Wi-Fi kit to the "Wi-Fi" connector (white, 7-pin)

6 Use the double-sided tape attached to the back of the EHS Wi-Fi kit and attach it indoors with a good Wi-Fi connection.

SmartThings app

To use the SmartThings app, connect the product to the network in the sequence described below.
The images shown may differ depending on your smartphone model, OS version and manufacturer.
You need to set up the Wi-Fi access point only when connecting the product to a Wi-Fi network. Once the product is connected, you can use the SmartThings app via Wi-Fi, 3G, LTE or more wireless networks.

1 Checking the power connections

Check if the power is connected to the product and the access point.

2 Setting up and connecting to a Wi-Fi access point using your smartphone

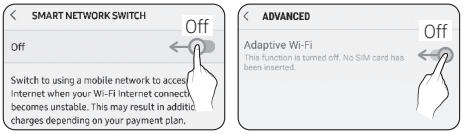

1 To connect the product to a Wi-Fi network, turn on Wi-Fi at “Settings > Wi-Fi", and then select the access point to connect to

- Only alphanumeric characters are supported for wireless access point names (SSIDs).
  If an SSID has a special character, rename it before connecting to it.
- Wi-Fi access point: 2.4 GHz Wi-Fi access point only.

2 Turning off “SMART NETWORK SWITCH" at “Settings > Wi-Fi" on your Smartphone

- If “SMART NETWORK SWITCH" or “Adaptive Wi-Fi" is turned on, you cannot connect to the network. Be sure to turn off these functions before connecting to the network.

NOTE

- The setup may differ depending on your smartphone model, OS version and manufacturer.

3 Checking the Internet connectivity

- After connecting to Wi-Fi, check that your smartphone is connected to the Internet.

NOTE

- A firewall may prevent your smartphone from connecting to the Internet. In this case, contact your Internet service provider for troubleshooting.

3 Downloading the SmartThings app and registering your Samsung account

1 Downloading the SmartThings app

- Search for "SmartThings" on Play Store or App Store, and download the SmartThings app to your smartphone.
- If the SmartThings app is already installed on your smartphone, update it to the latest version.

NOTE

- The supporting software version of the SmartThings app is subject to change according to the OS supporting policy the manufacturer provides.
  In addition, as for the SmartThings app or the functions that the app supports, the new application update policy on the existing OS version can be suspended due to usability or security reasons.
- The SmartThings app is subject to change without notice to improve usability or performance. As the mobile phone OS version is updated every year, the SmartThings is also updated continually according to the latest OS.
- If you have enquiries regarding the items mentioned above, please contact us on st.service@samsung.com.

2 Registering your Samsung account

- A Samsung account is required to use the SmartThings app. To create your Samsung account and log in to your account, follow the instructions displayed on the SmartThings app. You do not need to install an additional app.

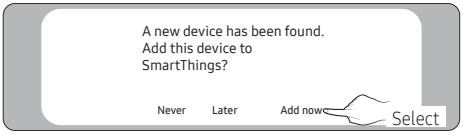

NOTE

- If you already have a Samsung account, log in to the account. When your smartphone is a Samsung device and you have a Samsung account, your smartphone is automatically logged in to your account.
- If you log in from a smartphone produced for a different country, you need to log in with its country code when you create your Samsung account, and the SmartThings app may not be used on some smartphones.

4 Connecting the SmartThings app to your product

1 Selecting the product to connect to

1) After the SmartThings app is started, select “ADD NOW" when a pop-up window saying that a product to connect to is found appears.

2) If the pop-up window does not appear, select "+", "Add" and then "Device".

You can add a product you want to connect to by selecting it manually or by selecting “Scan nearby".

- Select manually: Samsung › Air conditioner › Heat Pump
- Scan nearby: [System a/c] Samsung

2 Connecting the SmartThings app to your product

- Follow the instructions displayed on the SmartThings app to connect to your product.
- For information on how to use the SmartThings app, select the How To menu on the app.

NOTE

- If any pop-window appears on the top of the smartphone while connecting to your product, do not select it.
- If a Samsung account-related country error occurs during connecting to your product, log out of your current Samsung account, log in to your previous Samsung account, and then delete all devices that have been connected previously. Then, log in to your current Samsung account again, and then configure the settings.
- If a failure message appears while adding a device, see "Setting up and connecting to a Wi-Fi access point using your smartphone" on page 8.
  The connection may fail temporarily due to an installation location problem of the access point or other problems.
- If the number of added indoor units is incorrect after adding devices, run the tracking again and then try adding the devices again.
- For security protocols for wireless/wired access points, WPA-PSK and WPA2-PSK are recommended. For authentication methods, AES is recommended. New Wi-Fi authentication specifications and Wi-Fi non-standard authentication methods are not supported.
- If your Internet service provider permanently have registered the MAC address (a unique identification number) of your PC or modem, you may not be able to connect your product to the Internet. Contact your Internet service provider and ask how to connect devices other than your PC (such as an air conditioner and an air purifier) to the Internet.
- Since the APP version will be continuously updated, there may be differences between the operation interface in the manual and the actual APP, please refer to the actual APP operation..

Troubleshooting

Check the following before requesting a service from the Service Center.

Symptom		Measure
The installed SmartThings app cannot access the air conditioner.		• Make sure you have connected the air conditioner to a wireless router.
I cannot log in with my Samsung account.		• Try recovering your ID and password from the Samsung account page.
Adding device(s)	A failure message appears while adding devices.	• This may fail temporarily due to the distance from the router or some interferences. Try again later.
	I found a failure message in 0 to 1 percent of device addition process.	• You cannot add any device without deleting it once the device has already been added to the SmartThings app. To add the connected device again, first remove it and then proceed with the process.
	I found a failure message in 99 percent of device addition process.	• If you are using a Samsung smartphone, the server may not be connected temporarily. Restart the SmartThings app and then try adding the device again. • If your phone is not a Samsung product, check that you have entered a wrong Wi-Fi password. Try adding devices again.
	The app displays an authorization failure before pressing the user agreement button.	• Check if a Heat Pump is already connected from the SmartThings app. When there are devices added, first remove them and try again.
	The app displays an authorization failure on the user agreement screen.	• Make sure to press the [Power] button within 2 minutes after the screen appears. Try adding devices again.
	The screen requests to initialize the user account.	• This happens when the user has already added devices. Follow the instructions provided in the SmartThings app.
After adding a device, the SmartThings app displays the disconnection event.		• This happens when a device is being added to the server or it is temporarily disconnected from the router. End the SmartThings app and then launch it again.

Correct Disposal of This Product
(Waste Electrical & Electronic Equipment)

(Applicable in countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

(For India only)

For more information on safe disposal and recycling, visit our website www.samsung.com/in/support or contact our Helpline numbers - 1800 40 SAMSUNG (1800 40 7267864)
1800 5 SAMSUNG (1800 5 7267864).

This product is India RoHS compliant
